

Oilseeds Domestic Fundamentals:

Steady to firm sentiments featured in the oilseeds cash market followed by gains in international oils and fats market coupled with some concern over delay in domestic soybean harvest due to continued rains over key growing regions.

No aggressive buying in meals reported in the domestic front. India's oilmeal shipments increased by 14 per cent to 2.79 lakh tonnes in August followed by higher oilseeds output. India had reportedly exported 2.44 lakh tonnes of oilmeal in August, 2010 - Solvent Extractor's Association of India (SEA). During the October-August period of the current oil year, oilmeal shipments increased by 78 per cent to 48.22 lakh tonnes from 27.02 lakh tonnes in 2010.

The overseas meal buyers are eyeing on the forward soy meal quotes of Indian origin. The major overseas buyers increase their buying activity in the meal from October onwards.

International Oilseeds Fundamental:

Brazil's soybean exports were unusually large for this time of the year and up 24% from a year ago at 3.69 Mn T in August, reflecting still large Brazilian stocks and rallying prices in the US.

Outlook:

The domestic oilseeds prices are likely to gain owing to fresh seasonal demand in the vegetable oils which has subsequently encourage the solvent extractors in crushing the seed.
