

### Wheat Domestic Fundamentals:

- Wheat prices in cash market remained almost flat on lower demand and higher supply side. Demand for export is being seen in limited areas with price feasibility from source to destination.
- Overseas market is not very supportive for Indian wheat and maximum Indian export is likely to be offloaded in neighbouring countries
- The Tamil Nadu Roller Flour Mills Association has asked the Tamil Nadu Government to do away with VAT on wheat and wheat products.

### Wheat International Fundamental:

- Romania's wheat production this year is exceptional and exceeds eight million tons, of which half will be exported.
- Indonesia's wheat imports this year may hit 5.0 million metric tons, up 9% from 2010 on the back of growing domestic consumption and lower imports of wheat flour.
- World production is raised by 3m. tons, to 677m.(674m.). Total world wheat consumption has been revised up to 678 m. tons (657m.) The global carryover is expected to be broadly unchanged placed at 191m.

### Outlook: Domestic:

- Wheat prices are likely to remain steady to weak on lower demand for short term.
