

**Pulses Domestic Fundamentals:**

- Mostly steady to firm trend witnessed in chana while the prices of urad and moong are decline owing to new crop arrivals on Saturday.
- Fresh arrivals of moong have started in local markets of Maharastra, Madhya Pradesh and Rajasthan. Excess moisture level is reported in the new crop.
- Weakening of Indian rupee value against US dollar leading to raise in C&F quotes of pulses. Therefore, it would likely make imports expensive and imports likely remain with slow phase for short term.
- Latest report of Maharastra Agriculture Department, sown area under Kharif 2011 pulses as of September, 23<sup>rd</sup> is down by 22.2% to 20305.6 hundred hectares from last year's 26089.3 hundred hectares.
- Tur has been sown in 12090.29, Urad 3381.72 and Moong 3953.17 hundred hectares respectively as against the last year's sown area of 13700.45, 4983.09 and 6121.32 lakh hectares.
- As per the report of Andhra Pradesh Agriculture Department, the total sown area under kharif 2011 pulses as September, 21<sup>st</sup> is down by 30.6% to 6.86 lakh hectares from the last year's 9.88 Lakh hectares.

**Pulses International Fundamental:**

- Killing frosts has reported in Saskatchewan State of Canada. As per the latest reports of Saskatchewan Agriculture only 28% of chick peas have been harvested and frost has caused damage to the Chickpea crop.
- The harvesting of peas and lentils are almost finished and has therefore less effect from the frost

**Outlook:** Demand for pulses is expected to remain good in coming day following forthcoming festivities which may support the prices in days to come.

**Indicative International Prices (C&F, \$/MT): September 24, 2011**
