

**Pulses Domestic Fundamentals:**

- Mostly weak trend witnessed in all cash pulses markets.
- Fresh arrivals of moong and Urad have started in the markets of Uttar Pradesh, Maharashtra, Madhya Pradesh and Rajasthan. The prices are decline owing to new crop arrivals. However, excess moisture level is reported in the new crop.
- High arrivals of moong (30,000 bags) and urad (10,000 bags) in Maharashtra results into the price fall. The arrivals 2000 bags of urad is reported today in comparison of 300 bags on Saturday leads to price down to Rs 3750/Qtl from the Saturday's price of Rs. 4100/Qtl.
- Weakening of Indian rupee value against US dollar leading to raise in C&F quotes of pulses. Therefore, it would likely make imports expensive and imports likely remain with slow phase for short term.
- Latest report of Maharashtra Agriculture Department, sown area under Kharif 2011 pulses as of September, 23<sup>rd</sup> is down by 22.2% to 20305.6 hundred hectares from last year's 26089.3 hundred hectares.
- Tur has been sown in 12090.29, Urad 3381.72 and Moong 3953.17 hundred hectares respectively as against the last year's sown area of 13700.45, 4983.09 and 6121.32 lakh hectares.

**Pulses International Fundamental:**

- Killing frosts has reported in Saskatchewan State of Canada. As per the latest reports of Saskatchewan Agriculture only 28% of chick peas have been harvested and frost has caused damage to the Chickpea crop.
- The harvesting of peas and lentils are almost finished and has therefore less effect from the frost

**Outlook:** Demand for pulses is expected to remain good whereas prices of urad and moong may decline due to the pressure of new crop arrivals.
