### **Oilseeds Domestic Fundamentals:**

Oilseeds prices remained more or less stable on steady demand, Wednesday. Slight increase in soybean supply has slightly pressured the market. Firm international oil and fats market restricted the fall in soybean. Soybean arrivals improved in Madhya Pradesh and reported at 1.9 lakh bags compared to 1.7 lakh bags previous day. Regular normal buying was featured in the cash market. The stocks with major market players reportedly fell to 10-12 days compared to earlier 25-30 days of their daily crush capacity. The local domestic crushers like Kriti and Ruchi were active soybean buyers in MP while Shiv Edibles, Goyal Proteins, Poddar, Pawan Oils and Harikishan Tejmal remained key buyers in Rajasthan. MNCs were slightly less active compared to the local domestic buyers.

### International Oilseeds Fundamental:

China's soybean buying in November improved 50% on month to 5.7 Mln T, up 4% from a year ago. The total imports in the first 11 months declined to by 4.4% to 47.22 million tons.

**Outlook:** The overall domestic soybean fundamentals remain bullish in medium-term on rise in seasonal usage in edible oils and meals. However, the prices are expected to slightly fall towards 2400-2410 level in short-term (Plant delivery, Indore) opening the buying opportunity. It is advised to buy on dips between the mentioned levels.
