

Pulses Domestic Fundamentals:

- Mostly steady to weak tone witnessed in chana,tur and peas prices while firm tone featured in urad and moong during Monday's session.
- Buying support from millers for good quality of urad and moong supported the prices.
- However, dull demand in masoor is featured.
- As per the source, due to the revised pulses stock limit in Rajasthan, in Bikaner traders are liquidating their chana stocks aiding pressure.
- Traders/stockists in Bikaner selling their chana to Saurashtra, Gujarat at Rs 20 below from the prevailing market price with Rs 230/Qtl loading/unloading and transportation charge.
- Continuous rainfall in Andhra Pradesh favours the Chana sowing in state.

Pulses International Fundamental:

- Harvesting of peas and lentils are completed in the Saskatchewan province of Canada. Excess moisture and downgrading form ergot and frost is also reported in some areas. However, average to above-average crop yield is reported in most of the areas.
- North America's lentil market featured a firm tone in anticipation of lower seeded area and yield in Canada.

Outlook: Chana prices are expected to decline on weak demand at higher levels while good quality of urad and moong may support the further improvement in prices.
