

**Pulses Domestic Fundamentals:**

- All the pulses featured a steady to slightly firm tone amid lower arrivals ahead of Dewali and reports of pest attacks on standing crop of tur in Karnataka.
- Both moong and urad arrivals declined by 10000 and 1000 bags in Rajasthan and Kanpur respectively, supporting the sentiment
- Reportedly in Malwa region of Madhya Pradesh sowing of kabuli chickpeas (Dollar Gram) is expected to be higher this Rabi 2011-12.
- Further sources revealed that, Chana is being transported from Indore (MP) to eastern and Southern part of the country.
- Reportedly lower/negligible import contract due to depreciation in INR Vs USD remain supportive for pulses prices.

**Pulses International Fundamental:**

- In Canada, lentil market remains steady due to dull buying support.
- Moreover, in last week bulk pea's export lifts the prices in Canada.

**Outlook:** festival demand for pulses might support the pulses prices in coming days.

**Indicative International Prices (C&F, \$/MT): October 24, 2011**
