

Pulses Domestic Fundamentals:

- Mostly weak tone witnessed during the Saturday's trade on thin trading activity.
- Sluggish buying interest from traders, miller's, processor's and retailer's continue to weigh on prices.
- While depreciation in rupees value against USD makes import unviable. Because of high USD rates very less buying is reported from Indian importer's front.
- As per latest updates from Rajasthan Agriculture department, the sown area under rabi pulses 2011-12 surge by 26.75% to 15.22 lakh ha. in comparison with 12.01 lakh ha. of last year.
- Gram sown area in state also rise by 26.09% to 14.89 lakh ha. as compared to last year's 11.81 lakh ha.
- As per latest release from Ministry Of Agriculture as on Nov 25th, 2011, the sown area under rabi 2011-12 surge by 5.69% to 92.94 lakh ha. as compared to same period of last year's 87.94 lakh ha.

Pulses International Fundamental:

- As per latest release from Canadian Grain Commission, 204,500 MT of Canadian field pea is exported in October month, which is lower from 380,700 MT shipped in previous month and even down from same month of last year export of 276,200 MT.
- As per trade sources, currently imported moong is traded at bottom level on sluggish buying activity from India. However, exporters are eyeing toward the forthcoming demand from China and if there is some renewed demand reported, then moong prices are likely to jump by USD 50-100 in near term.
- As per Market participants, currently the freight to India is USD 30-35/MT as compared to earlier freight of USD 50-55/MT to maintain the parity/disparity.
- On export front, shipments of nearly 200000-225000 tonn of moong are reported from the Myanmar.

Outlook: Dull demand of pulses currently weighs on the prices.
