

Sugar & Gur Domestic Fundamentals:

- Mixed sentiments recorded in various sugar spot markets on Wednesday as markets could not find adequate cues to decide the prices either side. Market is waiting for any new event or decision on exports by government which will give the direction to the sugar prices further.
- Government is likely to decide on sugar exports on Thursday keeping in view higher international sugar prices. Meanwhile, government may allow shipments on monthly basis, according to a statement by Mr. Sharad Pawar.
- Mills of UP and Maharashtra will delay their cane crushing operations for crushing year 2011-12. No consensus over cane remuneration issue between millers and farmers and recent rainfall in Maharashtra region urges the millers to delay cane crushing which ultimately put impact on sugar output for 2011-12.
- Prices of fresh gur have plunged on Wednesday. Daily around 10000 bags of daily arrivals and less demand of gur kept the gur prices under pressure.

Outlook:

Sugar prices are likely to rebound from current level owing to higher sugar festive demand. However, crushing season in the end of the November might put some pressure on the ongoing prices
