

## Sugar & Gur Domestic & International Fundamentals:

- Mixed sentiment featured in key sugar cash markets on Saturday, inactive trading activity reported due to weekend period.
- The Central Government has decided to make available 17.16 lac tons of sugar (levy sugar 2.16 lac tons and non-levy sugar 15.00 lac tons) for the month of January, 2012. This quantity of 17.16 lac tons is sufficient to meet the internal demand of sugar for the month of January, 2012.
- Sugar production in Karnataka has hit an all-time high of 3.67 million tonnes during the sugar year, a growth of a whopping 49.3 per cent over the previous year. During the year 2009-10, mills in the state had produced 2.45 million tonnes.
- India has fixed the quota of sugar that mills will sell in the domestic market in January at 1.5 million metric tons, nearly 12% less than December's 1.70 million tons. Mills will supply 1.4 million tons of sugar from their normal production while another 100,000 tons will be the unsold stocks from December that will be available for sales until Jan. 15.
- Market participants are expecting that, demand for jaggery may increase due to the upcoming Sankranti and Pongal festivals in January, resulting in an increase in jaggery prices across the country.

## Outlook:

Sugar prices are tumbling in various spot markets as good pace of crushing by millers improved the supply of sugar in the open markets. We expect prices are likely to trade range bound with weak tone in the coming week.
