

Domestic Fundamentals:

- Steady tone witnessed in domestic edible oil market on Wednesday's trading session.
- Groundnut oil prices in Rajkot market featured steady tone due Ram Navami festival as market participants shown inactiveness in today's trading session, meanwhile G/N oil likely to trade in the range of 830-850 per 10kg in near term.
- Palm oil prices shown weak sentiment as Malaysian palm futures remained with weak tone. Higher stocks of palm oil at major producing countries may keep the palm oil prices in weak tone for the short term. But the inline festivals may keep the prices in check as higher demand in domestic market likely to occur.

International Market Fundamentals:

- CBOT soy oil futures (Dec '11) prices fell by 1 cents/lb to 49 cents/lb. Malaysian palm futures (Dec '11) prices fell by 25 points to MYR 2785 per MT in today's trading session as a result of weak fundamentals of global economy amid good supply weighed on the International markets.
- Low demand amid peak production of palm oil coupled with weak fundamentals of global economy adds bearish tone to Malaysian palm oil futures market. Trading range likely to be 2700-2800 levels.

Outlook:

Looking ahead, domestic market edible oil price is likely to remain range bound with weak bias for short term as of lean buying interest in the market. Any surge in demand for upcoming festivities likely keep the edible oil prices marginally firm tone. Meanwhile, domestic edible oil demand might surge in the medium term.
