

**Guar Domestic Fundamentals:**

Mixed sentiment featured in key Guar seed and Guar gum cash markets on Thursday. Stockists are offloaded their stocks at higher price level. Expected of normal monsoon also pressurize the guar prices in the domestic market. However, in NW region monsoon will enter in the first week of July and farmers are still waiting for the monsoon over guar growing areas.

Sluggish demand from cattle feed industry and higher supply pressurize the guar by- products (Churi and Korma) prices in the spot market. Churi prices are decreased by 9.7% and Korma prices are decreased by 2.9% as compared to the previous prices.

According to IMD, Southwest monsoon has further advanced in the remaining parts of northeastern States and some parts of Sub-Himalayan West Bengal & Sikkim. Conditions are becoming favourable for further advance of southwest monsoon over some more parts of Maharashtra, Andhra Pradesh, remaining parts of Karnataka and Bay of Bengal and some parts of east India during next 3-4 days.

**Outlook:**

Both guar seed and guar gum prices are expected to remain range bound in coming days on lower stocks, higher exports and normal progress of monsoon so far.
