

**Cotton Domestic Fundamentals:**

- Cotton markets noticed week tone on Tuesday except Ahmadabad and Muktasar.
- Andhra Pradesh CM directed CCI to procure cotton from state farmers after cyclone hit the state providing support to the prices.
- Expected higher export demand from Bangladesh mills which are ramping up production to meet expected demand from US and Europe on New Year and Christmas are keeping sentiments positive in the Gujarat, Rajkot market. Farmers are also holding the crop in expectation of higher prices.
- Cotton yarn is expected to touch 992 million kg by March next year on higher demand from China. In October cotton registration fell by 98 percent while yarn export grew by 100 percent to 9.4 million kg. Yarn exports have increased by 20 percent this fiscal. Falling rupee also make exports attractive.
- 5.15 million Bales have arrived in the market across India. Of which, 1.3 million bales of cotton have arrived in North Indian markets, another 1.15 million bales have arrived in Gujarat by November-end. Crop arrivals are also good in Andhra Pradesh and Maharashtra where 1.05 million and 0.85 million bales of cotton arrivals, respectively, have been registered.
- Arrivals this season is 15-16 percent less than previous season.
- 90 lakh bales of cotton production in Gujarat are expected.

**Cotton International Fundamentals**

- Cotton Futures at NYMEX closed higher amid expectation of good export sales expected in the monthly supply and demand USDA report.
- China cotton production estimates have raised estimates to 6.9 million tonnes for current year 2011-12.
- According to the International Cotton Advisory Committee, cotton production is set to fall by 11% to 23.2m tons in 2013/14.
- The Cotton Assessment Committee has estimated cotton production at 13.3 million bales in Pakistan for 2012 -13.

**Outlook:** We expect domestic cotton prices to continue steady to firm tone amid good demand from the exporters.
