- Maize' nizamabad market was closed on Monday due to protest for Telangana.
- Sluggish demand from poultry and starch were reported from the Ahmadabad region of Gujarat as they have 1 month maize stock. However, Punjab poultry farms have shifted demand towards bajra from maize.
- In Shimoga region of Karnataka, new crop arrivals have started, around 50 tons crop is arriving on daily basis which contain 18% moisture level and trading at Rs. 1350 per quintal. However, in Belgaum and Hubli region of Karnataka, maize new crop arrivals would arrive till mid October.

**International Market Scenario:**

- As per IGC estimate, World corn production declined by 1% to 833 million tons as compared to last estimate of 838 million tons in August 2012. Weak planting progress in Argentina and lower corn production estimate in US bound them to lower its global corn production estimates. Decline in output has led to the decline of corn carryover stocks for the coming year.
- As per USDA report, Old corn crop stocks in all positions on September 1, 2012 totaled 988,403 thousand bushels, down by 139242 thousand bushels from last year during the same period. Out of total stocks, 313,700 thousand bushels are stored on farms, down 1250 thousand bushels from the last year. Off-farm corn stocks, at 674,703 thousand bushels, down by 137992 thousand bushels from the last year. The June - August 2012 indicated disappearance is 2.16 billion bushels, compared with 2.54 billion bushels during the same period last year.

**Outlook:** IGC's lower corn production estimate and lower corn stock position reported by USDA support the corn prices in the International market led to increase in domestic maize prices. We expect maize prices to trade firm in the near term.
