

**Oilseeds Domestic Fundamentals:**

The domestic oilseeds prices fell on weak global cues, Friday. However, the upside was restricted due to bearish USDA numbers and fall in Malaysian palm oil. The soybean supply in Madhya Pradesh remained steady at 1.75 lakh bags compared to previous day. Normal regular buying was featured to meet the daily crushing requirement of the solvent extractors to further meet the oil and meal demand.

**International Oilseeds Fundamental:**

Brazilian soybean shipments totaled at 32.985 Mln T in 2011, up 13.5% from previous year. Last year, the quantity had been 29.073 million tons. In the USDA- WADE Report: The US soybean yield is estimated at 41.5 bushels per acre, up 0.2 bushels from the previous estimate. The US soybean ending stocks are projected at 275 million bushels, up 45 Mn. Global soybean production is projected at 257 Mln T, down 2.2 million mostly due to lower production forecasts for South America.

**Outlook:**

Soybean prices (all paid, Indore) are expected to remain range bound with firm bias on strong global and domestic fundamentals. Any dip in the prices is a buying opportunity, in view of stronger market in days ahead.
