

Oilseeds Domestic Fundamentals:

Soybean extended losses in the cash markets of Madhya Pradesh on lackluster buying activity Tuesday. The soybean arrivals in Madhya Pradesh remained inert at 1.25 lakh bags compared previous day. Feeble buying featured in the major centers of MP in anticipation of further fall in the prices. The soybean crush margin has slightly recovered but it is still in negative territory, which continues to be a negative factor for the solvent extractors. The crush parity was recorded slightly lower at Rs -750/MT compared to Rs -846/MT previous day. RM seed prices were strong in the markets of Rajasthan on good buying while the prices were weak in other key centers.

International Oilseeds Fundamental:

As per Oil World, the global supplies of soybeans are likely to fall in 2011/12. They have estimated global soybean production to fall by around 12 Mn T, more than offsetting the increase of 10 Mn T in opening stocks. The domestic soy complex is expected to remain strong in medium to long term in view of global soybean supply scenario.

Outlook:

Soybean prices (all paid, Indore) are expected to extend losses on feeble buying. The dip in the prices is a buying opportunity, in view of stronger market in days ahead.
