AGRIWATCH

Oilseeds Domestic Fundamentals:

Soybean prices (Plant Delivery, Indore) edged up despite lackluster trade activity. Higher Malaysian palm oil remained a supportive factor for the domestic bean. The soybean arrivals in Madhya Pradesh were reportedly lower at 15000 bags compared to 55000 bags previous trading day. The supply is well below the recent daily average bags which were about 1.0 lakh bags. The disparity in soybean crushing at Indore plants widened and recorded at Rs -656/MT compared to Rs -494/MT a day ago. The bean and meal prices relatively gained compared to soy oil. However, RM seed prices eased on arrival pressure followed by good harvesting pace in major producing regions.

International Oilseeds Fundamental:

China has imported 3.83 million tonnes of soybean in the month of February, down 16.9 per cent from 4.61 MIn T in January, as reported by the General Administration of Customs of China.

China bought 165,000 tonnes of US soybean for 2012/13 delivery from private exporters reported US Agriculture Department. Besides in another deal Taiwan's Breakfast Soybean Procurement Association (BSPA) has bought 60,000 tonnes of soybean of Brazilian origin in a tender closed on Thursday.

Outlook:

Range bound movement with weak-bias is expected in soybean prices. Plant delivery soybean price at Indore is expected to ease by Rs15-25/Qtl in days ahead.
