AGRIWATCH

Oilseeds Domestic Fundamentals:

Soybean prices (Plant Delivery, Indore) remained uptrend on lower arrivals and bullish global supply scenario. However, lower Malaysian palm oil and fall in CBOT soy limited the gains Wednesday. The soybean arrivals in Madhya Pradesh further declined to 15,000 bags from 40,000 bags previous day. The fall is due to the expected worker's strike in the mandis of Madhya Pradesh, which was called off. The RM seed prices further declined on weak buying and new crop supplies.

International Oilseeds Fundamental:

The soybean plantings in US are expected to increase moderately this season due to likely better planting intention in corn.

South American soybean outturn is seen plummeting by at least 16 Mn T by Oil World. Further, world output of soybeans will decline by an unprecedented 23 Mn T to a 3-year low estimated by Oil World.

Outlook:

Soybean prices are expected to trade range bound. Soybean plant delivery price at Indore is expected to rise by Rs15-25/Qtl in a couple of trading sessions.
