

# Oilseed Daily Fundamental Report 27 June, 2012

#### Oilseeds Domestic Fundamentals:

The soybean (plant delivery, Indore) edged-up on bullish outlook in oilseeds in the first half of the 2012/13. The Malaysian palm oil ended slightly higher, Tuesday. The soybean arrivals in Madhya Pradesh remained unchanged at 50,000 bags for consecutive third day. However, RM seed prices mostly featured steady tone due to the lack of strong support in Malaysian palm oil, Tuesday.

#### International Oilseeds Fundamental:

In the official US crop progress report blooming of recently planted soybean is reported at up at 12% compared to the 5-year average of 4%. However, 65% is reported at good to excellent condition. World global oilseeds will continue to decline substantially in the first half of the new season. The availability will only become ample with the supplies of South American soybean production in early 2013.

#### **Outlook:**

Soybean prices are expected to trade range bound. Soybean plant delivery price at Indore is expected to gain by Rs20-30/Qtl due to dried-up pipeline supply and fresh edible oil demand.
