#### International Oilseeds Fundamental:

Oil World has reported that this year's US groundnut crop reached an all-time high of 2.2 million tons. According to Oil World, US soybean export inspections were reported above expectations at 64.1 Mn bushels. According to the latest crop progress report released by USDA, US soybean harvest is 96 per cent complete as compared to 93 per cent last week and 93 per cent 5 year average. According to Safras & Mercado, the Brazilian soybean planting in the 2012-13 season has progressed to 54% of the expected production area which is slower than in the same period last year, when 66% of the area had been sown.

#### **Outlook:**

Soybean plant delivery price improved on improved seasonal and festive demand in meal and edible oils. We expect soybean prices to increase by Rs 10-20/Qtl on active buying in cash market and underlying firm global factors.
