

Onion Fundamentals:

- In Delhi onion is mainly coming from Madhya Pradesh, Rajasthan and Maharashtra. Onion supply from Maharashtra will continue till Diwali.
- As visible in below graphs, arrivals have started falling in Mandis of producing region and consumption centers which resulted into increase in prices.
- Supply from Maharashtra is less as people have stored the good quality onion in hope of better prices.
- As per conversation with trader generally farmers start releasing the onion in the month of July but early arrival of monsoon makes them bound to release the onion because chances of quality deterioration is high.
- In consuming centers , the difference between wholesale price and retail price range from Rs. 400 to 500/Qtl
- Meanwhile retail prices in different cities are hovering between Rs. 400-1500/Qtl. The highest being recorded in Trivendrum, Gangtok and Guwahati. This is due to their distant location from producing region.
