Market Intelligence System

Onion Fundamentals:

- Onion arrival from Lucknow is almost over and arrivals of local varieties are almost over. Onions from other states like Rajasthan (Jodhpur belt) are coming into the local mandies. However, the size of onions is small and fetching discount over the locally available large size onions.
- Prices differential of Rs 3-4/Kg between Jodhpur and Lucknow onions lead to greater demand of onions of Jodhpur. We expect arrival of Onion from Jodhpur to continue for coming couple of weeks till the onset of monsoon and the same shall weigh on the market sentiments for short term in Lucknow.
- However, with the onset of monsoon in the region could results into transport and logistics problems which might lend support to the onion prices moving forward.
- Onion growers in Nasik region of Maharashtra are holding their product at these price levels. They are optimistic for price increase with the onset of active rain. This results into lower arrivals in recent time. The same shall lend underlying support to the onion prices during coming couple of weeks.
