

Onion Fundamentals:

- In Nasik as per the trader still the prices of onion are hovering between Rs 450/quintal-Rs600/quintal. The reason behind low prices is that farmers are releasing low quality onion whose demand is less. They have kept the good quality onion with them in hope of high prices in coming month.
- In Lasalgaon the average arrivals have decreased from 13700 qtl to 11500 Qtl compared to last week. The reason behind this decline is that farmers/traders have hoard the stock in hope of that next month onward prices may go up. As monsoon has arrived, so the prices are expected to increase due to supply & demand mismatch.
- The early Khraiff crop area in Karnataka is expected to less in comparison to last year because of low groundwater level. Once the plantation is complete area can be estimated. But definitely it will be low this year as monsoon arrived late.

Onion Prices & Arrivals in Producing & Consumption Centers
