

## Onion Fundamentals:

- In Delhi, onion is mainly coming from Rajasthan, Madhya Pradesh and Maharashtra which contribute 47%, 35% and 18% respectively to the total arrival. Onion from Rajasthan will be available in the markets till mid August. Prices are expected to increase in near future, as per traders.
- In Kurnool in A.P, till now 28.8% of sowing is completed. Last year it was 32% completed at this time. As per traders, area under onion crop is expected to be less due to deficit rainfall and late arrival of monsoon.
- The early Kharif crop area in Karnataka is expected to be less in comparison to last year because of low groundwater level. Once the planting is complete area can be estimated. But it will definitely be lower this year as monsoon arrived very late.
- In Belgaum (Karnataka), currently the onion is coming from Maharashtra and local region (Bagwadi) which is supplying 30% and 70% of the total arrival in Belgaum market. Last year, prices were almost same hovering between Rs650- Rs700/qty but this year they are expecting the prices to increase.
