

Onion Fundamentals:

- Across the country, prices are not showing much fluctuation and are not varying much with the arrivals which indicate that demand is stable in market.
- According to trade sources, newly-harvested crop is now available in Karnataka and Andhra Pradesh. Southern states are supplying to West Bengal and Orissa which has replaced the demand of Maharashtra region.
- In Pimpalgaon, arrivals have declined to 8500 quintals from 11500 quintals in last three days whereas prices have also fallen to Rs 550/ quintal from Rs 600/ quintal. Arrival and prices are declining because of slow market and arrival of fresh onion from southern region.
- In Retail market, across the country prices are hovering in the range of Rs 900 to Rs 2000/ quintal from last few days because of low demand. Arrivals are changing per according to market but overall market is dull.
