Technical Analysis - Potato- June Contract at MCX

(Source: AGRIWATCH)

Potato-Agra June contract of MCX is unable to breach 1080 level. Short Sellers became active at this level. Even those who have bought June contract earlier try to exit at every rise in price. This is also visible in falling open interest whenever prices retrace from its day's high. At the same time, open interest increases

in far month contracts which suggests market participants expect futures prices are high enough and may fall any time.

Potato Prices in major markets – Mandi vs. Retail as on 6th June 2012
