19 July, 2012

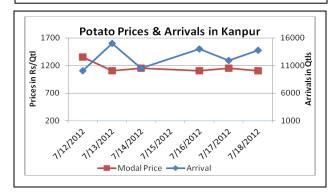

Potato Fundamentals

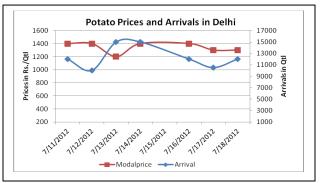

- In Sadabad (U.P) till now 25% potato has been released from the cold storages. The arrivals have decreased from 8300 quintals to 4500 quintals in last 4-5 days. The reason of decline in arrivals is that farmers/ traders are expecting the market to increase further.
- In West Bengal till now 29% potato has been released whereas last year it was 23% 24% released at this particular period of time. Production is 25 % less compared to last year but still the release is low because traders/ farmers have stocked it.
- As per the trader, market in West Bengal is slow as well as demand is low. Prices are expected to be range bound between Rs1000 Rs 1100/ quintal throughout the season. The reason that prices will not increase is that the state government has intervened against the hoarders.
- In Kanpur (U.P) prices are constant throughout the week and moving around Rs1100/ quintal whereas arrivals changing as per the demand in the market. Demand is good at all prices levels.
