

Potato Fundamentals

- In Bangalore the average wholesale prices are hovering in the range of Rs 1550/qrtl to Rs1750/qrtl and are expected to cross Rs 2000/qrtl by next month. In retail market, potato prices have already crossed Rs2100/ quintal and likely to increase further. This increase in prices is due to green vegetables whose prices are rising.
- In Ahmedabad, locally produced potato is mainly coming from nearby regions. On an average 3-4 truck of 'Chiopsona' variety from Indore arrives daily. As per a trader, potato from Indore is fetching the highest prices of Rs 16 to Rs18/ kg.
- In Sadabad (U.P), till now 27-30% potato has been released from the cold storages. The average prices remained constant at Rs 675/ quintal throughout the week because of slow market. The reason behind slow market is that farmers/traders are expecting prices to rise in the near future.
- In Kolkata market, average prices and arrivals remained stable throughout the week at Rs 1150 /qrtl and 4600 quintals respectively. As per traders, prices will remain steady ahead because State government has intervened against the increasing prices of potato and hoarders.
