

Potato Fundamentals:

- In Hyderabad, potato mainly comes from U.P region and Indore which contribute approximately 25% and 75% respectively to the total arrival. According to trade sources, 'Chipsona' variety of Indore region is able to fetch highest price of Rs 22-Rs 25/kg in wholesale market.
- According to trade sources in Tarkeshwar (West Bengal), 50% potato has been released from the cold storages as compared to last year's approximately 40% at this time. On an average per day release is approximately .75% of the total stocked left in cold storages.
- In Ahmednagar, mainly potato comes from U.P region. According to trade sources, demand of potato has decreased by almost 40% compared to last few days. The reason in decline is that demand from Karnataka region has decreased as Hassan origin potato is in market and people are giving more preference to it rather than U.P origin potato.
