

Potato Fundamentals:

- In Karnataka, supply has reduced from major producing regions like West Bengal and U.P because Potato of Hassan origin is available in market and this variety is giving more profit than other varieties available in market.
- In Khandauli (Agra), prices have increased to Rs 1275/ quintal from Rs1200/quintal in last two days and release from cold storage has decreased. The reason of decline in release from cold storage is heavy rainfall in that region.
- In Delhi, potato is mainly coming from U.P, Punjab and Shimla which are contributing approximately 85%, 5% and 10 % respectively to the total arrival.
- According to trade sources in Delhi market, average arrivals have decreased to 60-70 trucks compared to 100-120 trucks per day in last few days because of lower supply from U.P region as of heavy rainfall. Because of decline in arrivals average prices have increased to Rs 1125/ quintal from Rs 1100/ quintal.
