

Potato Fundamentals:

- In Khandauli (Agra), 45- 50 % of potatoes has been released whereas in whole U.P region only 40% potato has been released. According to trader sources, prices of potatoes are expected to remain same or may decrease because of large quantity of potatoes stored in cold storages.
- According to trade source, if release will be at this pace than prices are expected to increase but the State government should not intervene.
- In Gujarat, approximately 55% of potato has been released from cold storages. Prices are hovering in the range of Rs 1250 to Rs 1400/ quintal and are likely to remain stable throughout the week. Demand for Gujarat origin potato mainly comes from Maharashtra and Rajasthan.
- At this time, farmers and stockiest of Agra are actively releasing their stocks in market as farmers do see much upside in potato prices as arrivals from Hubli region of Karnataka will start increasing gradually.
