

Pulses Domestic Fundamentals:

- Pulses domestic cash markets featured steady to firm movement on renewed buying interest from end-user.
- Chana at future market opens at higher quotes but can't sustain above Rs.4300 and closed at Rs.4275 per quintal.
- Higher USD rates against INR value resulted increase in imported pulses prices.
- As per sources, pulses prices are rising in expectation of 2 lakh ton purchase tender from Andhra Pradesh Civil Supply Corporation in coming days and it will take away large portion of supply available in open markets.
- Moreover, early intention of growers for shifting towards soyabean from kharif pulses also leads to the firming up of pulses prices.
- And , expectations of Rs.1000 per quintal hike in minimum supported price of upcoming kharif pulses also add up fuel to bears in markets.

International Fundamental:

- As per Government of Alberta, new pea crop will be available in second half of August and until then buyers have to purchase the available tight pea supply. The available stocks in Canada were at lowest level in quite a few years. In Canada, supply of both yellow and green pea are tight resulted firm outlook during coming weeks.

Outlook: Range-bound movement is expected due to irregular buying activity.

Indicative International Prices (C&F, \$/MT): 29th May, 2012
