

Pulses Domestic Fundamentals:

- Most of the pulses market remained closed on India festival "Bhai Dooj".
- The Commission for Agriculture Costs and Prices (CACPC) in its latest report named "Price Policy for Rabi Crops" has recommended 10 per cent import duty on pulses for next three years to encourage domestic production and also opening up of pulses exports to create a neutral trade policy. India pulses worth Rs. 8,767 crore in 2011-12.

International Fundamental:

- According to the Agriculture and Agri-Food Canada (AAFC), total pulses and special crops production is likely to increase by 5 per cent to 4.778 MMT due to higher sown area under the crop. Meanwhile, total supply will reduced marginally on low carry-in stock, total carry-out stocks is 5 percent below the average of the previous five years.. Exports are also likely to increase due to strong demand for lentils and peas. Domestic consumption is likely to decrease as higher quality crop will increase the exportable surplus.
- In Ethiopia, export of oilseeds, pulses and spices reported revenue growth of 31 percent in the first two years of the growth and transformation plant (GTP) period. The amount of the sector grew to 608000 tons (12 percent growth) in the second year of the GTP as compared to 539000 tons in first year. And revenue reached to 506.20million USD to 663.6 million USD in this year.(Source-The Ethiopian Herald)

Outlook: - Consolidation phase is likely to witness due to thin demand.
