Peas (Matar)

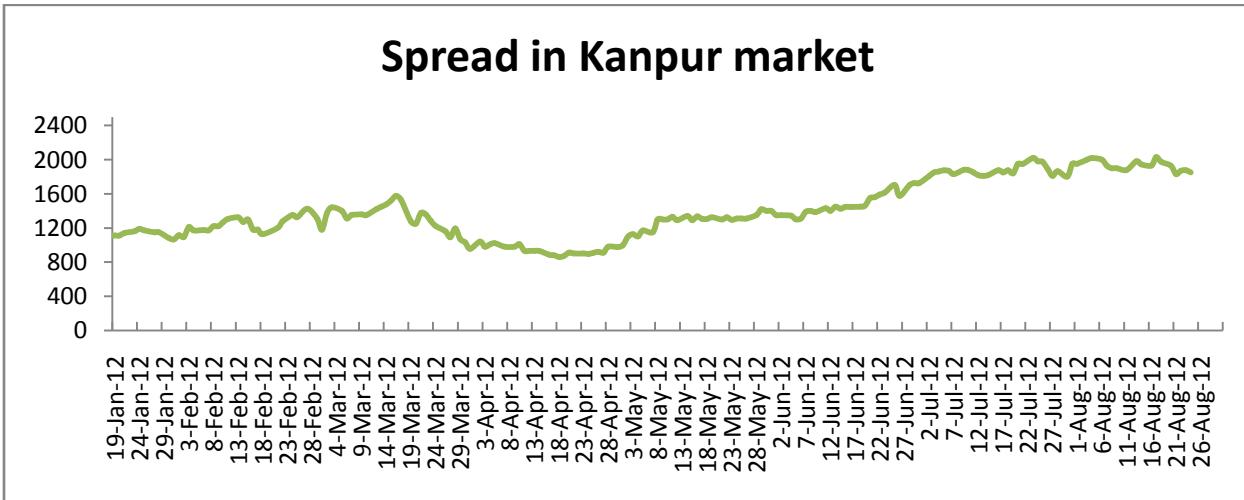

Both, desi and imported pea prices remained range-bound during this week.

Current Market Dynamics & Outlook:

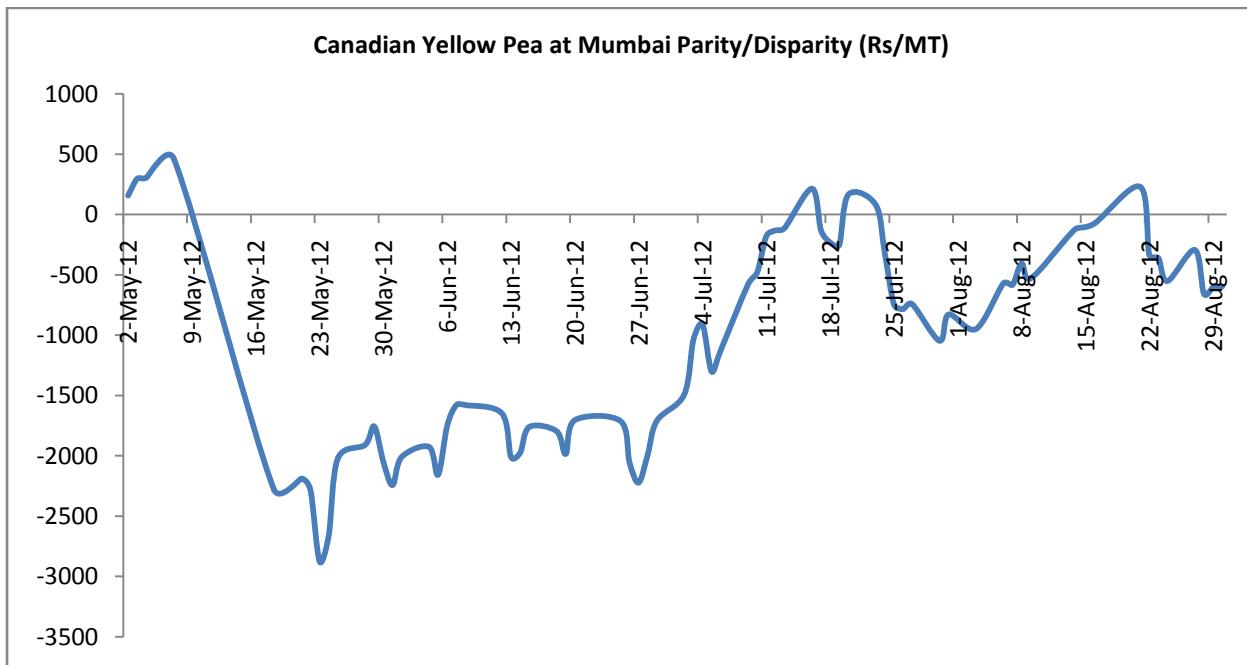

Desi (local) peas average prices in Kanpur market remained range-bound between Rs.3050-3070 per quintal with trading activity at higher prices. During this week, average imported pea prices also remained range-bound. Following chart illustrates the pea scenario at different market:-

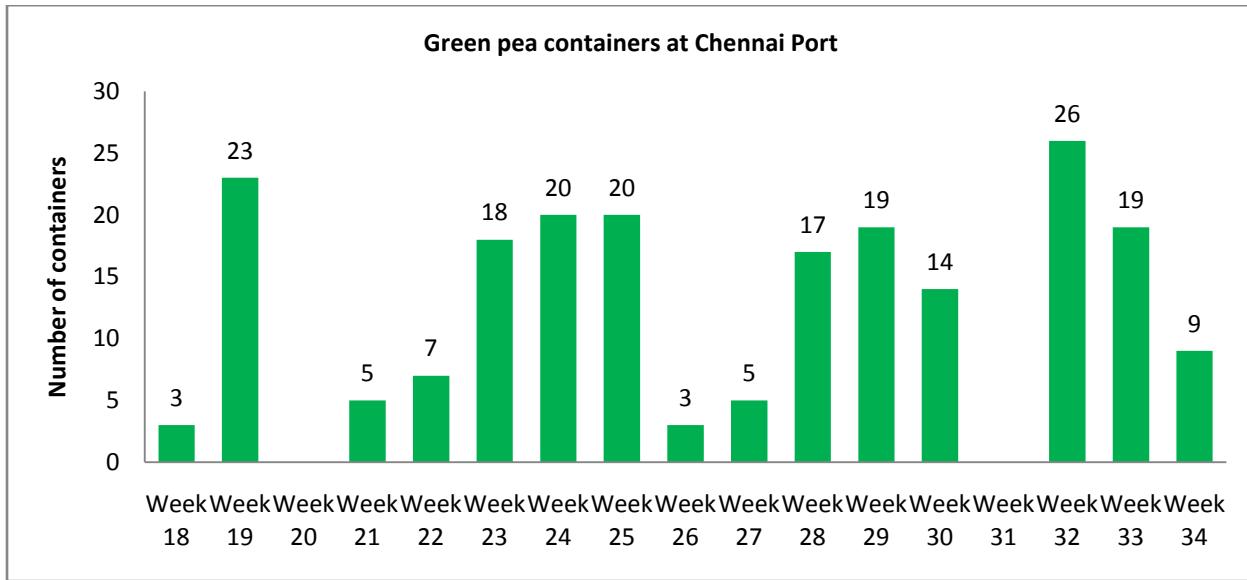

The spread between Chana and Peas at Kanpur is in a continuous uptrend due to higher chana prices. And as we earlier predicted, the spread between the two fell upto Rs.1900 per quintal and spread reached at 1850 per quintal in last week. However, spread is likely to fall to 1700-1850 in the coming weeks in expectation of fall in chana prices.

Canadian origin yellow pea importers are continuously finding disparity and imports remained unviable during August month with the disparity reaching Rs.8 per Kg. Following chart illustrates further:-

Continuous arrivals reported at Chennai port as imports increased due to higher chana prices. Following chart illustrate the number of containers arrived at Chennai port:-
