

Daily Sugar/Gur Fundamental Report

11th April, 2012

Sugar & Gur Domestic & International Fundamentals:

- Sugar prices increased in all key spot markets on Tuesday. However, prices decline in Chennai and Vijayawada markets as reported. It is noticeable that stockiest have lower stocks in their pipeline and they want to increase their sugar holding by procuring at lower level to fulfill upcoming summer demand which might support the sugar prices in spot markets up to some extent.
- China sugar output increase by 28% Y-o-Y till March 2012. China produce 2.27 million tons sugar in March 2012 which is up from 1.77 million tons sugar produced by China last year same period.
- Directorate of sugar release 813335 tons of sugar export orders to 478 mills under OGL as reported.
- Gur prices improved on Tuesday owing to lower arrivals of gur in the market compared to prior day.
- Around 1370000 bags (40 kg each) has been stored in Muzaffar nagar cold storage till 9th April 2012 which are 82000 bags higher compared to last year same period stock position of gur.
- Meanwhile, Kolhus are getting cane in the regions where mills closed or are in process of closing in UP.
 It is noticeable that Kolhus are paying Rs 220-225 per quintal as cane payment to the farmers at present.
- Kolhus are still crushing cane and making gur as they still find parity in making gur from cane. It is
 noticeable that gur prices came down sharply from 2600 to 2400 per quintal for Chaku variety in
 Muzaffar nagar market.

Outlook:

Sugar and Gur prices are stabilize at present level. We expect prices will trade in a range in both commodities
