AGRIWATCH

23th April, 2012

Sugar & Gur Domestic & International Fundamentals:

- Steady to firm sentiments prevailed in various sugar spot markets on Saturday.
- According to the preliminary reports received from the Department of Agriculture and Cooperation, sugarcane has been planted in 44.12 lakh hectare as compared to 43.23 lakh hectare last year on this date. Sugarcane plantation is 0.89 lakh hectare more than last year. Normal area for sugarcane cropping is 47.45 lakh hectare.
- Higher area coverage has been reported from Uttar Pradesh (0.82 lakh hectare), Tamil Nadu (0.66 lakh hectare), Maharashtra (0.51 lakh hectare), Karnataka (0.50 lakh hectare), Bihar (0.21 lakh hectare), Madhya Pradesh (0.14 lakh hectare), Assam (0.05 lakh hectare), Andhra Pradesh and Punjab 0.03 lakh hectare each and Uttarakhand (0.01 lakh hectare).
- Attache projected Brazilian sugar export to 25.25 million tons, raw value, which is approx. 2% up compared to last year sugar shipment from Brazil.
- Mixed sentiment was reported today in Gur spot market. Weak demand and increasing stock position of gur in cold storages, prices should fall in the coming days.
- Around 1396000 bags (40 kg each) has been stored in Muzaffar nagar cold storage till 16th April 2012 which are 50000 bags higher compared to last year same period stock position of gur. Out of total gur stock position, there are around 931,000 of Chaku variety gur stored in Cold storage which are 25000 bags higher compared to previous same period
- Kolhus are still crushing cane and making gur as they still find parity in making gur from cane. It is noticeable that gur prices came down sharply from 2600 to 2400 per quintal for Chaku variety in Muzaffar nagar market.

Outlook:

Sugar prices are moving up owing to good summer demand throughout the country. However, prices of gur should crash in the coming days owing to lesser demand and moderate arrivals.
