AGRIWATCH

1st May, 2012

Sugar & Gur Domestic & International Fundamentals:

- Prices declined in various sugar spot markets on Monday owing to weak demand and delay in notifying sugar exports.
- Sugarcane growth affected by shortage of water in Maharashtra during March and April month for 2012-13 season as rainfall in these months are below 59% below the normal, according to IMD.
- Thai white sugar premium rose to \$25 from \$20 owing to increased demand as reported.
- Archer consulting cuts its Brazil cane production estimate for the second time in a month to 508 million tons from 512 million tons for 2012-13 crop. However, Archer forecast higher sugar production ~32.51 million tons against previous forecast of 32.47 million tons.
- Gur prices improved today due to lesser arrivals and improved demand.
- Around 1414000 bags (40 kg each) has been stored in Muzaffar nagar cold storage till 23rd April 2012 which are 50000 bags higher compared to last year same period stock position of gur. Out of total gur stock position, there are around 916,000 of Chaku variety gur stored in Cold storage which are 28000 bags lesser compared to previous same period

Outlook:

Suspense over sugar exports urge the sugar prices to trade range bound in the coming week. However, improved cane availability for making gur and higher gur prices gives parity for kolhu makers for making gur which will increase the arrivals of gur in the mandi in the coming days.
