Sugar & Gur Domestic & International Fundamentals

- Weak sentiments recorded in key spot markets of sugar on Saturday.
- Around 6000 tons of raw sugar is arriving at paradeep port as reported.
- ISO sees global sugar surplus to 6.18 million tons which it has raised from its previous sugar surplus estimate of 5.86 million tons which gives a clear hint of bearishness in the international sugar prices.
- Rumors are hovering in the markets of around 70 lac tons sugar quota for 4 months i.e. Dec2012 -March 2013. If government release this much of quota in the open market then sugar prices must crash like anything in the coming days.
- Around 5.85 lac tons of sugar has been imported till date from overseas and still 2 lac tons of sugar waiting in-line to Tuticorin port as reported.
- UP government is likely increase 10% over last year SAP. Government is likely to fix the cane price tomorrow. Meanwhile, UP chief minister waives loans of around Rs 1650 crores by which around 7.2 lac farmers get benefitted. Only those farmers who took loans of Rs 50000 or more and have returned 10% of the amount get benefited with this waiver scheme.
- Gur prices are improved today in Muzaffar nagar market due to lower arrivals compared to prior day. However, Kolhus in the UP region have ample cane to crush and to make gur. Market participants are waiting for much awaited SAP price of UP cane for 2012-13.
- Around 18000 bags (40 kg each) of Gur has been stored in Muzaffar nagar cold storage till 19th Nov 2012, which are 6400 bags higher compared to same period in last year, stock position. Out of total gur stock position, there are around 435 bags of Chaku variety gur left in Cold storages for last season. This week around 6000 bags of gur has been lifted.

Outlook:

Sugar prices likely to continue its downward movement in the coming days keeping in view continuous sugar imports and expectation of higher sugar quota for the coming months.
