

Domestic Fundamentals:

- Spot edible oils traded with a weak bias due to limited buying in cash market on Friday.
- G/N oil fell from higher quotes in Rajkot market due to dull demand amid lackluster buying kept the prices on the lower side. Moreover, Rapeseed oil traded with a weak bias due to new crop arrivals amid weak edible oil basket keep pressuring the prices.
- We expect domestic edible oil prices are expected to trade in a choppy range on account of dull demand and strengthen INR against US dollar. However fair international fundamentals would restrict excessive losses.

International Market Fundamentals:

- Malaysian palm oil products exports for the period of 1-25 Jan. fell by 19.9 per cent and stood at 947,401 million tonnes from 1,182,707 tonnes shipped during 1-25 Dec. – SGS. Crude palm oil production in Indonesia is likely to rise by 8 percent from a year ago to 4.5 million tonnes in the Q1 2012.
- As per Buenos Aires grains exchange, Argentine 2011/12 soy output seen at 46.2 Mln. Tons. Moreover, Argentine Agriculture Ministry has cut soybean output estimate to 48.9 Mln. T from 52-53 Mln. T forecasted last month.
- Low soybean output estimated amid dry weather condition in South America might support the global soy and soy oil prices in near to medium term.

Outlook:

Looking forward, Domestic edible oil basket is likely to trade with steady note in near term due to lackluster buying activities in cash market.
