

### **Domestic Fundamentals:**

- Mixed trade activity featured in various edible oils on varied factors in different market centers, Saturday
- Steady to firm sentiments featured in soy oil. Sunflower oil prices fell on lower demand while RM oil prices edged-up on buying support in the market.

## **International Market Fundamentals:**

- The shortage of groundnut oil in the world market is expected to increase in months ahead.
- Significant fall in stocks at the start of this season (down 0.8 Mn T from a year earlier) as well as rising domestic requirements are likely to require a sharp increase in Chinese imports of 17 oils and fats by 1.4 Mn T to a record 10.6 Mn T in Oct/Sept 2011/12.
- In response to Indonesian palm oil products export tariff, Malaysia will reform its crude palm oil export duty policy and is likely to introduce a 1 billion ringgit fund to assist downstream players.
- Intermittent rainfall witnessed over the key soy growing area of Argentina and it is likely to continue further in a days ahead which may weigh on the soy oil prices at CBOT in near term.

## **Outlook:**

Bearish short-term global outlook and increasing new crop RM seed supply and consequent improve crushing in RM seed domestically is expected weigh on the edible oil prices in the domestic market in near-term.
