

Domestic Fundamentals:

- Edible oils witnessed steady tone in major spot markets on lackluster buying interest. However, bullish oilseed fundamentals limit downside.
- Groundnut oil featured steady tone at its benchmark market Rajkot on improved buying. As per trade sources, 70-75 percent of the total summer groundnut crop has arrived in the markets.
- Crude palm oil stood steady as wholesalers refrain from active buying. However, need based buying limit downside.
- Edible oil basket may trade sideways to firm tone in the coming days in anticipation of better buying from wholesalers ahead of Ramadan festivals and slow progress of monsoon.

International Market Fundamentals:

- CPO at BMD was ended higher on Monday's trading session on bullish Malaysian palm product export figures and dry weather concern over the key soy growing areas of US.
- As per SGS, Malaysian palm oil products exports for June rose 9.7 percent to 1,463,864 tons from 1,333,869 tons shipped during May. Palm oil products exports figures for June for top major markets (Values in tons and May import figures in parenthesis): China 323,474 (250,500), EU 236,711 (261,637), Pakistan 196,229 (145,050), USA 124,680 (124,965) and India 257,507 (228,095).
- Dry weather concern over the key soy growing areas of US and bullish Malaysian palm product exports may support soy oil in the days ahead.

Outlook:

We expect edible oil prices may trade with a steady to slightly firm tone.
