

Domestic Fundamentals:

- Edible oils witnessed weak tone in major spot markets on bearish cues from international palm oil market.
- Groundnut oil featured steady to firm tone at its benchmark market Rajkot on better buying and active re-packers. However, good availability of groundnut seed for crushing limits excessive gains.
- Refined soy oil witnessed weak tone tracking weak cues from international market. However, tight soybean supply and an upcoming slew of festivals in mid July could act as an encouraging factor for the market.
- Edible oil basket may trade sideways to firm tone in the coming days in anticipation of good demand in mid July and firm oilseed fundamentals.

International Market Fundamentals:

- CPO at BMD was ended lower on Thursday's trading session due to expectation of wet weather over the US Midwest However; lower US soybean yield may support palm oil in the coming days.
- As per SGS, Malaysian palm oil products exports for 1-10 July fell 22.2 percent to 331,978 tons from 426,914 tons shipped during 1-10 June.
- As per MPOB's latest report, Malaysian palm oil ending stock for June fell by 4.9 percent to 1,699,117 tons from a revised 1,758,684 tons in May.

Outlook:

We expect edible oil prices may trade with a steady to slightly firm tone.
