

Domestic Fundamentals:

- Edible oils witnessed steady to slightly weak tone in major spot markets on limited buying and weak international edible oil market.
- Groundnut oil featured weak tone at its benchmark market Rajkot on dull demand. As per Ministry of Agriculture, sown area for Kharif Groundnut stood at 28.8 lakh hectares as on 03 Aug 2012 down 18.6 % compared to corresponding period last year, which was 35.4 lakh hectares. Lower groundnut sown area due to scanty rainfall over key producing region of Gujarat and Saurashtra could lead to lower output in the current season.
- Refined soy oil and palm oil fell at major spot markets on limited demand and bearish cues from domestic as well as international market.
- Edible oil basket may trade sideways to slightly weak tone in the coming days. However, festive demand in the coming days could limit downside.

International Market Fundamentals:

- CPO at BMD was ended slightly lower on Monday's trading session on rising Malaysian palm oil stocks and weak demand from top importers. However, better US jobs data limit downside.
- As per SGS, Malaysian palm oil products exports for 1-30 July fell 18.5 percent to 1,193,227 tons from 1,463,864 tons shipped during 1-30 June.
- Informa Economics lowers its U.S. soybean yield projection by 1.3 bushels per acre to 37.2 bushels per acre and cut its soy production projection to 2.791 billion bushels from the previous 2.9 billion bushels

Outlook:

We expect edible oil prices may trade with a steady to slightly weak tone in the coming days.
