Domestic Fundamentals:

- Most of the edible oils featured steady to firm note in major spot markets on better buying interest. Mustard oil featured firm tone on bullish fundamentals and improved buying ahead of festivities. Moreover, refined soy oil featured slight gains on slow offloading of soybean by farmers and stockists buying ahead of Hindu's festivals.
- Groundnut oil witnessed steady tone at Rajkot market. Moreover, market participants eyed on upcoming industry meet in the days ahead which may confirm new directional moves in the G/N oil prices. As per Agriwatch estimates, India's edible oils imports in September 2012 seen at 8.4-8.7 lakh tons.
- Edible oil basket likely to trade with a steady to slight firm tone ahead of Hindu's festivals. However, rising Kharif oilseed arrivals may limit upside.

International Market Fundamentals:

- Malaysian futures market ended lower on Friday's trading session on scrap of tax free CPO shipment quotas.
- According to the latest USDA report, the US soybean production is raised to 77.84 million tons from 71.69 million tons compared to the last month estimate on higher harvested area and better yield prospects. Harvested area is estimated at 75.7 million acres, an increase of 1.1 million acres from previous month estimate and soybean yield is revised to 37.8 bushels per acre, up by 2.5 bushels from previous estimate.
- Malaysia will cut crude palm oil (CPO) export taxes and scrap a tax free shipment quota for the grade from Jan 1 2013. However, government did not disclose the quantum of the cut in CPO export taxes tax cuts and will be effect from Jan. 1, 2013.

Outlook: Edible oil basket is expected feature slightly firm tone in near-term on festive demand. However, rising *Kharif* oilseeds supply pressure may limit upside.
