AGRIWATCH

Domestic Fundamentals:

- Edible oil basket witnessed firm tone on good export demand for oil meals and seasonal demand for edible oils. However, weakness in the international palm oil market limits excessive gains.
- As per Govt. of India, total area sown in Rabi oilseeds till now (15 Nov) for 2012-13 is reported down at 46.86 lakh hectares compared with 50.81 lakh hectares in 2011-12. Area planted under RM seed is 39.83 lakh Ha, under Groundnut is 1.82 lakh Ha and under Sunflower is 2.37 lakh Ha.
- Refined sunflower oil featured gains tracking bearishness in the INR against US dollar and lower prices shift the demand to premium oils. Palm oil and groundnut oil stood unchanged on limited buying against adequate supplies.
- Rapeseed oil witnessed losses tracking bearish cues from futures and in expectation of higher acreage in the Rabi season weigh on the market sentiments. However, depleting RM seed stocks limit excessive losses.
- Edible oil basket is expected to trade with a steady in near-term with festive buying getting over. However, prices are likely to improve with expected seasonal rise in the edible oil demand.

International Market Fundamentals:

- CPO at BMD closed slight lower on profit booking and bearish Malaysian palm oil export figures for 1-20 Nov.
- Malaysian palm oil products export figures for 1-20 Nov. fell 3.3 percent to 1,023,517 tons compared to 1,058,844 tons in the Oct. 1-20 period- Intertek Testing Services. China imported 346,100 tons of Malaysian palm oil products, up 106.68 percent from month ago. Meanwhile, lower imports were registered in the account of India & subcontinent down 27.6 percent to 184,625 tons.
- Oil World has reported that global supply of soybean is down 24 million tons from last year in Sept-Feb 2012-13 despite the noticeable upward revision in the US soybean crop by USDA.

Outlook: Edible oil basket is expected to trade with a steady in near-term with festive buying getting over. However, prices are likely to improve with expected seasonal rise in the edible oil demand.
