

Domestic Fundamentals:

- Edible oils prices featured mixed tone on lackluster trade activities. However, mustard, and groundnut oil gains in today's trading session.
- CPO kandla 5% featured weak tone tracking bearish cues from international palm oil market and non aggressive buying witnessed on continues losses at domestic front. CPO at MCX ended lower by 0.10 percent to Rs 410.40 per 10 Kg compared to the previous trading session.
- Mustard oil quoted higher on renewed demand from oil millers and lower RM seed oil prices attract buyers. However, higher palm oil stocks in the South East Asian countries limit upside.
- Refined soybean oil featured steady to weak tone on bearish cues from CBOT soy oil and weakness in the domestic
 futures. As per sources, persistent weakness in the international palm oil market and lackluster trade activities in the
 spot market weigh on the sentiments. However, meal export demand may underpin soy oil prices in the coming weeks.
- Edible oil basket is expected to feature steady to weak tone in the days ahead on bearish international palm oil fundamentals. However, seasonal demand may limit downside.

International Market Fundamentals:

- CPO (Feb) at BMD ended lower by 9 point to Ringgits 2268 per ton on higher palm oil ending stocks and losses at overnight CBOT. January Soybean Oil closed down 0.62 at 49.17 cents/lb.
- As per cargo surveyor Societe Generale de Surveillance Malaysian palm oil export figures fell 3.3 percent to 734,571 tonnes from 759,452 tonnes shipped during Nov. 1-15. Higher imports witnessed from European countries. Meanwhile, Chinese and Indian palm oil imports were lagging. India imported 87,750 tons in the first fifteen days of December, down 14.3 percent compared to the corresponding period previous month.

Outlook: Edible oil basket is expected to trade with a range bound in the near-term on weak international edible oil market. However, seasonal demand may limit downside.
