

Wheat Domestic Fundamentals:

- **Wheat cash market on Tuesday traded weak** on fresh report of higher area coverage in Uttar Pradesh and Bihar. Fresh shower of rains in Punjab, Haryana and western U.P. have added bearish sentiments on market current fundamentals. Besides, increased supply through OMSS and PDS restricts market to move northward.
- **Wheat area is about to touch previous year level with** continued sowing in Bihar and Uttar Pradesh. However, latest area coverage update is still awaited. As on 13th January total all India coverage under wheat was registered at almost 284 lakh ha. against 283.23 lakh ha. in the corresponding period last year.

Wheat International Fundamental:

- **World grain production will total 2,298.51 million tonnes** in the 2011/12 crop year, up from a previous forecast of 2,295.00 million, the U.S. Agriculture Department said on Thursday. World output for 2011/12 would include 691.50 million tonnes of wheat, 1,145.56 million of coarse (feed) grains and 461.44 million of rice.
- **World wheat market is expected to trade under** pressure in the week ahead as disposable surplus is increasing against demand and better crop prospects for next MY will continue to pressurize wheat in the overseas market.

Outlook: Domestic market:

- **Wheat may trade weak for short and medium term on bearish fundamental report.**
