

Wheat Domestic Fundamentals:

- **Wheat market traded almost steady on improved** demand from millers and dwindling stocks in private hands. New wheat in Gujarat is being marketed @ 1200 per qtl. on loose basis and almost 50 percent wheat from new crop has been marketed so far. Even M.P. new wheat is being traded at the rate of Rs 1250 per qtl. However, prices of wheat are expected to move up from current level as procurement will start in M.P., Gujarat and Maharashtra on 15th of March.
- Commission agents of Punjab and Haryana are meeting at Jargron (Ludhiana) on 25th March to protest against govt.'s efforts for doing away with their roles in grain selling and purchasing. They are opposing payment through cheque to farmers.

Wheat International Fundamental:

- **Global wheat production for MY 2012 is set to breach** all records as FAO pegged world wheat production to as high as 690 million tons. Higher acreage in Asia and optimistic outlook for CIS countries results into higher production and subsequent global surplus.
- **Record production from India as projected by Agricultural Ministry** (88.31 million tons – 2nd advance estimate 2012) along with bounty production estimates from Pakistan 24.4 million tons (previous year 24.3 million tons) ensures better supply from the Indian sub-continent.

Domestic market outlook: Wheat market is expected to trade steady to slightly firm on Tuesday's trading session.
