

Wheat Domestic Fundamentals:

- Wheat cash market continued to head north way on back of delayed harvesting in Punjab and Haryana. Last phase of rains in the north India extended the ripening period of grains and harvesting is likely to commence from 15th of March in both major wheat producing states-Punjab and Haryana.
- Rajasthan govt. offers Rs 100 per qtl bonus for local farmers and it will ensure higher procurement this year. M.P. too is offering bonus to state's farmers. Besides, delay in harvesting in Punjab and Haryana has supported price to move up. However, situation in Bihar and eastern U.P. may be worse price wise at peak arrivals.
- Maida loading from Gujarat's port has been abandoned. The reason behind is still unknown. Traders say that some quality issue is there. Higher wheat price will impact wheat products prices in the months ahead.

Wheat International Fundamentals:

- Wheat futures surged sharply higher on fear of lower planting this year. All locations settled with gains falling within the range of 0.385 to 0.515, with most contracts ending near the top of this range. Bullish USDA report data for Wheat sets the market up to start the month of March on a Bullish note, as all Wheat plantings of 55.9-M acres were well below expectations as were quarterly grain stocks of 1.2-B bu
- Australia's 2012/13 wheat production is forecast at 27 million tonnes, down about 6.5 percent from the Post's 2011/12 estimate, which was increased to a record 28.9 million tonnes. The estimate for 2011/12 wheat exports was also increased, to a record 20.5 million tonnes

Outlook For Domestic Markets:

Wheat may trade higher and buying on dip is desirable.
