

Wheat Daily Report 22nd November 2012

Wheat Domestic Fundamentals:

- Market is unlikely to take a major dip, despite 6.5 million tonnes of wheat allocation for bulk users. Hike in wheat release price for Rajasthan (Rs 1356 to Rs 1556) and Gujarat (Rs 1421 to Rs 1621) remains supportive to the wheat market fundamentals.
- Although availability of wheat for flour millers will increase. Current allocation is expected to augment supply only for bulk users and they will be able to get sufficient wheat through tender and their dependence on private trade will decrease considerably. However their requirement to source wheat from cash market will remain, though to lesser extent.
- Market participant expect price to move up from current level allocation of almost 16 lakh per month is not sufficient to fulfill entire requirement of flour millers. Stock in private hand and farmers is a t negligible level and all these factors are likely to support price at current level.

International Market Update:

- According to the International Grains Council Morocco will overtake Algeria as Africa's second-largest
 wheat buyer behind Egypt in the 2012-13 seasons. Morocco is expected to import 5.2 million tonnes of
 wheat.
- Iraq's state grains board has purchased a total of 350,000 tons of wheat from Australia, Russia and Canada. Of the total, 200,000 tons of Australian wheat was purchased from Glencore at USD 404.89 per tonne CIF. Glencore also sold 50,000 tons of Russian wheat at USD 399 per tonne CIF. 100,000 tons of Canadian wheat was sold by Viterra at USD 409.89 per Tonne CIF.
- Russian wheat stocks are down by 47% Year-on-year basis. Wheat stocks at farms, procurement and processing companies, excluding small farms, fell 47 percent as of Nov. 1, from a year ago level.

Domestic market Outlook: We expect wheat future market to trade Steady to high due to slow pace of sowing, export demand, continued demand for wheat products and increased price of wheat release at various centers under OMSS.
